**44 Saturday Rd.**

**Webcast live on [www.ionradio1640.com](http://www.ionradio1640.com)**

Professional sailors with experience running and participating in community sailing programs around the United States will share what they know about how a public sailing center for the people of Mt. Pleasant can make sailing more accessible to people, young and old, who want to use our public waters and public waterfront to learn and to enjoy sailing. The status of the proposed sailing center at the waterfront memorial park will be addressed. Refreshments will follow the forum.
